

Guido Kanschat

Professor (W3)

Email: kanschat@uni-heidelberg.de

<http://www.mathsim.eu>

IWR

Universität Heidelberg

Im Neuenheimer Feld 368

D-69120 Heidelberg

1 Education

2004 *Habilitation* and *venia legendi*, Mathematics, University of Heidelberg, Germany

1996 *Doctor rer. nat.* (PhD in Science), advisor Rolf Rannacher, University of Heidelberg, Germany

1992 *Diplom*, Mathematics, advisor Jens Frehse, University of Bonn, Germany

2 Appointments

2012– Professor, Universität Heidelberg

2012–2013 Professor, Texas A&M University (on leave)

2009–2012 Associate Professor, Texas A&M University

2006–2009 Assistant Professor, Texas A&M University

2005–2006 Research Associate (*Wiss. Ang.*), Universität Heidelberg

2000–2005 Assistant Professor (*Wiss. Assistent*), Universität Heidelberg

1999–2000 Visiting Assistant Professor, University of Minnesota

1999 Assistant Professor, Universität Heidelberg, Germany

1995–1999 Research Associate, IWR, Universität Heidelberg, Germany

1986–1989 Software developer, Siempelkamp Engine Construction, Krefeld, Germany (part time)

3 Awards

2017 Marsilius Fellow, Heidelberg University

2011 The Richard Stadelmann Faculty Senate Service Award, Texas A&M University

2009 KAUST Innovation Award, with R. Korty and D. Thomas

2007 The J. H. Wilkinson Prize for Numerical Software, with W. Bangerth and R. Hartmann

4 Grants

- 2016–2019 PLACE — Partizipation langfristig absichern, Chancen erweitern. Joint project of Heidelberg University and PH Heidelberg. Minister of Science and Art, Baden-Württemberg, proposal co-author.
- 2016–2018 Exa-DG. Project within DFG priority program SPPExa, PI, with W. Wall, K. Kormann, M. Kronbichler (TUM).
- 2015–2019 heiEducation. Joint project of Heidelberg University and PH Heidelberg within “Qualitätsoffensive Lehrerbildung”, Federal Minister of Education and Research (BMBF), proposal co-author.
- 2014 International guest professorship for Béatrice Rivière, from excellence initiative funds at Heidelberg University.
- 2010 One semester research grant at the Institute of Mathematics and its Applications, Minneapolis.
- 2010 BIRS Conference on Nonstandard Finite Element Methods in Computational Fluid Dynamics, with V. Girault (Paris VI), P. Mineev (U. Alberta) and J.-L. Guermond.
- 2009 NSF-CBMS: Regional Conference on Adaptive Finite Element Methods, PI, with Wolfgang Bangerth (TAMU)
- 2008–2010 NSF(DMS): Tuning-free adaptive multilevel Discontinuous Galerkin methods for Maxwell’s equations, PI, collaborative research with R. Hoppe (U. Houston) and T. Warburton (Rice U.)
- 2008–2012 King Abdullah University of Science and Technology Global Research Partnership Center “Institute for Applied Mathematics and Computer Science”, investigator, (PI: Jim Calvin)
- 2007–2011 NSF-DNDO: ARI-LA: A Framework for Developing Novel Detection Systems Focused on Interdicting Shielded HEU, investigator (PI: Warren Miller)
- 2007–2009 NSF-DMS: Discontinuous Galerkin Methods for PDEs with Heterogeneous Coefficients, co-PI, with Jean-Luc Guermond (TAMU), PI, and Raytcho Lazarov (TAMU)
- 2006 Deal.II becomes part of the SPEC CPU2006 Benchmark
- 2000–2003 DFG *Schwerpunktprogramm ANumE*, co-Pi, Rolf Rannacher, PI, 2000–2003
- 1999 DFG *Habilitationsstipendium* (postdoctoral scholarship), 5 months
- 1992–1995 DFG Graduate Scholarship

5 Collaborators

- B. Ayuso, Universidad Autónoma de Barcelona, Spain
- W. Bangerth, Texas A&M University, USA
- J. Bevan, Texas A&M University, USA
- A. Bonito, Texas A&M University, USA
- B. Cockburn, University of Minnesota, USA
- V. Girault, Université Paris VI, France
- J. Gopalakrishnan, University of Florida, USA
- R. Hartmann, DLR, Braunschweig, Germany
- H. K. Hesse, Universität Heidelberg, Germany
- R. H. W. Hoppe, University of Augsburg, Germany
- I. Hoteit, King Abdullah University of Science and Technology, Saudi Arabia
- B. Janssen, KTH, Sweden
- R. Korty, Texas A&M University, USA
- R. Lazarov, Texas A&M University, USA
- R. Lucchese, Texas A&M University, USA
- Anna Marciniak-Czochra, Universität Heidelberg, Germany
- B. McElmurry, Texas A&M University, USA
- E. Meinköhn, Universität Heidelberg, Germany
- P. Monk, University of Delaware
- I. Perugia, Università di Pavia, Italy
- R. Rannacher, Universität Heidelberg, Germany
- L. Rivera-Rivera, University of Missouri, USA
- S. Richling, Institut d’ Astrophysique de Paris, France
- D. Schötzau, University of British Columbia, Vancouver, Canada
- Ch. Schwab, ETH Zürich, Switzerland
- F.-T. Suttmeier, Universität Siegen, Germany
- Z. Wang, Texas A&M University, USA
- T. Warburton, Rice University, Houston, USA
- R. Wehrse, Universität Heidelberg, Germany
- S. Zedler, Texas A&M University, USA

6 Publications

6.1 Articles in refereed journals

- [1] N. Sharma and G. Kanschat. Convergence of an adaptive divergence-conforming discontinuous Galerkin method for the Stokes problem. *J. Numer. Math.*, 2018. published online.
- [2] G. Kanschat, R. Lazarov, and Y. Mao. Geometric multigrid for Darcy and Brinkman models of flows in highly heterogeneous porous media: A numerical study. *J. Comput. Appl. Math.*, 310:174–185, 2017.
- [3] G. Kanschat and J. P. Lucero Lorca. A weakly penalized discontinuous Galerkin method for radiation in dense, scattering media. *CMAM*, 16(4):563–577, 2016.
- [4] W. Bangerth, T. Heister, L. Heltai, G. Kanschat, M. Kronbichler, M. Maier, and B. Turcksin. The `deal.II` library, version 8.3. *Arch. Numer. Software*, 4(100):1–11, 2016.

6.8 Miscellaneous

- [69] G. Kanschat and E. Meinköhn. Multi-model preconditioning for radiative transfer problems. Preprint 2004-33, SFB 359, Heidelberg, 2004.
- [70] G. Kanschat. *Discontinuous Galerkin Finite Element Methods for Advection-Diffusion Problems*. Habilitationsschrift, Universität Heidelberg, 2003.
- [71] G. Kanschat. *Parallel and Adaptive Galerkin Methods for Radiative Transfer Problems*. Dissertation, Universität Heidelberg, 1996. Preprint SFB 359, 1996-29.

7 Conferences (Organized)

- 15th European Finite Element Fair, Heidelberg, June 2018
- IWR School on Mathematical Methods in Quantum Chemistry, Heidelberg, with A. Dreuw, M. Herbst, October 2017
- SPPExa Workshop on Fast high order DG methods for future architectures, Heidelberg, with P. Bastian, Ch. Klingenberg, M. Kronbichler, V. Springel, July 2017
- International Workshop on the Advances of Discontinuous Galerkin Methods, Heidelberg, with Nilima Nigam, December 2015
- PDFSoft 2014, Heidelberg, with P. Bastian, V. Heuveline
- BIRS Workshop on Nonstandard Finite Element Methods in Computational Fluid Dynamics, with V. Girault, P. Mineev, J.-L. Guermond, 2010
- CBMS Regional Conference in the Mathematical Sciences — Adaptive Finite Element Methods for Partial Differential Equations, College Station, June 2009
- ISC Workshop on Radiation simulation, College Station, with S. Nasiri, J. Ragusa, 2008
- International Conference on Modeling, Simulation and Optimization of Complex Processes in honor of the 60th birthdays of H. G. Bock and R. Rannacher, Heidelberg, with M. Braack, E. Kostina, J. Schloeder, 2008
- First international deal.II user workshop, 2006
- RadConf, interdisciplinary workshop on numerical methods for radiative transfer problems with R. Rannacher, R. Wehrse, E. Meinköhn, 2003
- International conference “ENUMATH 97” with H. G. Bock, R. Rannacher, 1997
- Workshop “Adaptive Finite Element Methods” with Ch. Führer, R. Rannacher, 1995
- Workshop “Natur-Wissenschaft”, modeling in environmental physics with R. Eils, J. Jäger, 1994

8 Student Advising

8.1 Advisor

- current: J. P. Lucero, A. Bettendorf, S. Meggendorfer, J. Witte (PhD); Ph. Siehr, ; A. Aschauer (B.Sc.)
- 2017: N. Shakir (PhD); E. Miftari (M.Sc.); A. Hoffmann, P. Warkentin, E. Witwit (B.Sc.)
- 2016: M. Klingebiel (M.Sc.)
- 2014: Y. Mao (PhD); J. Vogel, E. Miftari H. Kaspari, P. Esser, M. Schubert, D. Stronczek (B. Sc.)
- 2013: V. Paus, (B.Sc.)
- 2011: A. Sharp (M.Sc.)
- 2007: B. Janssen, *Diplom, Heidelberg University*
- 2006: Ch. Laux, *Diplom, Heidelberg University*

8.2 Thesis co-advisor/mentor

- M. Herbst, PhD, Heidelberg University, current
- B. Janssen, PhD, Heidelberg University, 2011
- H. Hesse, PhD, Heidelberg University, 2008
- 4 *Diplom* : W. Bangerth (1999), R. Hartmann (1999), B. Lienerth (2004), A. Wild (2001)
- 2 *Staatsexamen* : A. Kürbs (1998), I. Krause (2003)

8.3 External Referee

- R. Oyarzúa, Universidad de Concepción, Chile, 2010
- Lars Pesch, PhD, University of Twente, The Netherlands, 2007
- J. J. Sudirham, PhD, University of Twente, The Netherlands, 2005

9 Invited Presentations and Research Visits

2018

- Erwin-Schrödinger-Institute, Vienna (Jun/Jul, 5 weeks)

2017

- International Workshop on Flow in Deformable Porous Media, Hamburg (Dec)
- 6th Chinese-German Workshop on Applied and Computational Mathematics, Shanghai (Oct)
- Helmut-Schmidt-University Hamburg (Jul)
- Summer School on Applied Mathematics & Computational Science, Chulalongkorn University, Bangkok (Mar)
- Oberwolfach (Mar)
- University of Tennessee, Knoxville (Mar)
- Nonconforming and DG methods, Milano (Jan)
- Oberwolfach (Jan)

2016

- Keynote, International Conference on Recent Advances in Theoretical & Computational PDEs with Applications, Panjab University (Dec)
- TU Delft (Sep)
- PIMS short course, University of British Columbia (Aug)
- Software tutorial, 5th European Seminar on Computing (Jun)
- University of Houston (Mar)
- Rice University (Jan/Mar, 5 weeks)

2015

- ETH Zürich (Dec)
- SISSA Trieste (Nov, 1 week)
- 5th Chinese-German Workshop on Applied and Computational Mathematics, Augsburg (Sep)
- Joint workshop on Scientific Computing, Kyoto University, Japan (Sep)
- MSRI Summer School Geometric and Computational Spectral Theory, Montréal (Jun)
- BSSE Basel (May)
- Universität Stuttgart (Apr)
- 25 Years Cooperation in Applied Mathematics, Prague, Czech Republic (Apr)
- Short course on computational aspects of the finite element methods, Indian Institute of Space Science and Technology, Thiruvananthapuram, India (Feb)

2014

- Short course on computational aspects of the finite element methods, IIT Bombay, India (Mar)
- IISc Bengaluru, India (Mar)
- IIST Thiruvananthapuram, India (Mar)

2013

- Universität Göttingen (Nov)
- SISSA Trieste (1 week, Sep)
- deal.II User Workshop, College Station (Aug)

2012

- Louisiana State University (May)
- University of Delaware (Mar)
- Theory and Application of Discontinuous Galerkin Methods, Oberwolfach (Feb)

2011

- Waves 2011, Simon Fraser U. (4.5 hour tutorial, Jul)
- Applied Mathematics Perspectives 2011, U. British Columbia (Jul)
- Workshop on Advances in Numerical Analysis and Scientific Computing, U of Houston

2011

- Waves 2011 Conference, Vancouver, BC (4.5 hr tutorial)
- Numerical Methods for Incompressible Fluid Flow, Vancouver, BC

2010

- Institute for Mathematics and its Applications, Minneapolis (1 semester)
- deal.II tutorial at the IMA, Minneapolis
- deal.II User Workshop 2010, Heidelberg, Germany
- Universität Heidelberg (1 week), Germany
- SIAM Annual Conference 2010, Pittsburgh (minisymposium)
- DSPDEs 2010, Barcelona (minisymposium)
- King Abdullah University of Science and Technology (2 weeks), Thuwal, Saudi Arabia

2009

- Brown University, Providence
- Universität Kiel (1 week), Germany
- Universität Heidelberg (1 week), Germany
- ENUMATH 2009, Uppsala (minisymposium)
- MAFELAP 2009, London (2 minisymposia)
- University of British Columbia, Vancouver

- Simon Fraser University, Vancouver

2008

- Rensselaer Polytechnic Institute, Troy
- Universität Heidelberg (1 week), Germany
- Fraunhofer Institut Kaiserslautern, Germany
- RWTH Aachen, Germany
- Sandia National Lab, Albuquerque
- Virginia Tech, Blacksburg

2007

- BIRS Workshop on DG, Banff
- University of Alberta, Edmonton
- ICIAM07, Zürich, Switzerland (2 minisymposia)
- 3rd Scientific Computing Seminar, Kiel
- Universität Göttingen
- Universität Karlsruhe
- Universität Heidelberg
- Int. Conf. of Theor. and Numer. Fluid Mechanics III, Vancouver
- University of Texas, Austin
- Rice University, Houston

2006

- Max-Planck-Institut Leipzig
- Texas A&M University, College Station

2005

- McGill University, Montreal
- Universität Erlangen
- Universität Siegen
- University of Delaware
- Nanyang Technical University, Singapore
- University of British Columbia, Vancouver
- University of South Carolina (1 month)
- SIAM SEAS Meeting, Charleston (Minisymposium)
- University of Minnesota
- Technische Universität Braunschweig
- Universiteit Twente, Enschede
- Texas A&M University (2 weeks), College Station
- University of Houston
- The University of Reading
- Universität Kiel
- Universität Duisburg

2004

- University of Florida, Gainesville
- Universität Siegen
- Universität Göttingen
- ETH Zürich
- Universität Ulm

- ICOSAHOM04, Providence (Minisymposium)

2003

- Army High Performance Computing Research Center, Minneapolis
- ENUMATH03, Prague (Minisymposium)
- MIT Conference (Minisymposium)

2002

- Technische Universität Dresden
- Mathematisches Forschungsinstitut Oberwolfach
- Università di Pavia
- University of Minnesota

2001

- Chalmers Tekniska Högskola, Göteborg
- University of Minnesota, Minneapolis
- Rensselaer Polytechnic Institute, Troy
- ENUMATH01, Ischia Porto (Minisymposium)
- NUMDIFF 10, Halle (Minisymposium)

2000

- Colorado State University, Fort Collins

1998

- Institut Mittag-Leffler (2 weeks), Stockholm

1997

- Institute of Mathematics and its Application, Minneapolis (1 month)
- National Center for Supercomputer Applications (2 weeks), Urbana-Champaign
- Centre de Recherche en Calcul Appliqué, Montreal
- ETH Zürich

1996

- Universität des Saarlandes, Saarbrücken
- Universität Paderborn
- Australian National University (1 week), Canberra
- University of Sydney
- Zentrum für Interdisziplinäre Forschung, Universität Bielefeld
- Univerzita Karlova, Praha

1994

- Technische Universität Braunschweig
- Universität Paderborn

10 Teaching record

Note: additional student seminars since 2012 not listed

Summer 17	Mixed Finite Element Methods (U. Heidelberg)
Winter 16	Numerical Analysis of Partial Differential Equations (U. Heidelberg)
Summer 16	Numerical Analysis of Ordinary Differential Equations (U. Heidelberg)
Summer 15	Linear Algebra II (U. Heidelberg)
Winter 14	Linear Algebra I, more than 700 students (U. Heidelberg)
Summer 14	Mixed and Discontinuous Finite Element Methods (U. Heidelberg)
Winter 13	Numerical Analysis of Partial Differential Equations (U. Heidelberg)
Summer 13	Numerical Analysis of Ordinary Differential Equations (U. Heidelberg)
Winter 12	Introduction to Numerical Analysis (U. Heidelberg)
Spring 12	Numerical Analysis (MATH 417, Texas A&M)
Fall 11	Seminar in Applied Mathematics (MATH 664, “iterative solvers and preconditioning”, Texas A&M)
Spring 11	Engineering Calculus II (MATH 152) and Numerical Analysis (MATH 417, Texas A&M)
Spring 10	Differential Equations (MATH 308, Texas A&M)
Fall 09	Numerical Analysis (MATH 609, Texas A&M)
Fall 09	Differential Equations (MATH 308, Texas A&M)
Fall 08	Differential Equations, 2 sections (MATH 308, Texas A&M)
Spring 08	Linear Algebra and Vector Calculus (MATH 601, Texas A&M)
Fall 07	Differential Equations (MATH 308, Texas A&M)
Spring 07	Partial Differential Equations (MATH 602, Texas A&M)
Fall 06	Numerical Analysis (MATH 417, Texas A&M)
Winter 05/06	Finite elements with applications (course for PhD students in science) (U. Heidelberg)
Summer 05	Numerical Methods for Flow Problems (U. Heidelberg)
Winter 04/05	Numerical Analysis II (Partial Differential Equations) (U. Heidelberg)
Summer 04	C++ programming for numerical applications (U. Heidelberg)
Winter 03	C++ programming for numerical applications (U. Heidelberg)
Summer 03	C++ programming for numerical applications (U. Heidelberg)
Winter 02	C++ programming for numerical applications (U. Heidelberg)
Summer 02	C++ programming for numerical applications (U. Heidelberg)
Winter 01	C++ programming for numerical applications (U. Heidelberg)
Summer 2001	C++ programming for numerical applications (U. Heidelberg)
Winter 00	Iterative Solvers for Sparse Linear Systems (U. Heidelberg)
Spring 00	Numerical Methods for Partial Differential Equations II (University of Minnesota)
Fall 99	Numerical Methods for Partial Differential Equations I (University of Minnesota)
Summer 99	Practical Introduction to object-oriented finite element software (U. Heidelberg)
Summer 98	The Finite Element Method (advanced course) (U. Heidelberg)
Summer 98	Practical Introduction to object-oriented finite element software (U. Heidelberg)

11 Service record

11.1 Heidelberg University

- Associate Director Interdisciplinary Center for Scientific Computing, 2017–
- Head of exam committee M. Sc. Scientific Computing, 2016–
- Member of the Heidelberg School of Education Council (HSE-Rat), 2015–
- Member Senate Committee for Teaching, 2015–2016
- Member Master of Education Task Force, 2014–2017
- Dean of Studies (Studiendekan), 2014–2016
- Faculty representative for mathematics and computer science on the joint council for the reform of teacher education of Heidelberg University and PH Heidelberg, 2012–2014

11.2 Texas A&M University

- Member of the Council on the Built Environment, 2011-2012
- Member of the Council on Climate and Diversity, 2011-2012
- President GLBT Professional Network, 2011-2012
- Member of the Diversity Awards Committee, 2010
- Member of the search committee for the faculty ombudsperson, 2010
- Texas A&M System Task Force on Export Control Policies, committee on employees and visitors, 2009
- Member executive committee of the faculty senate, 2009–2010
- Member of the search committee for the Vice President and Associate Provost for Diversity, 2009
- Caucus leader of the College of Science in the faculty senate, 2008–2010
- Treasurer GLBT professional network, 2008–2010
- Member of the Faculty Senate and its committees on research and diversity, 2007–2012

11.3 Department of Mathematics, Texas A&M University

- Undergraduate Curriculum Committee, FY 2011
- Subcommittee Tenure, FY 2011-2012
- Volunteer at the Physics and Engineering Festival, 2010, 2011

11.4 Professional Service

- Founding editor of “Archive for Numerical Software”

11.5 Heidelberg University (post doc)

- Member of the IWR Parallel Computer Committee, U. Heidelberg, 2005–2006
- Member of the Selection Committee, Graduate School for Scientific Computing of the IWR, Heidelberg, 2005
- Head of the Applied Mathematics Student Computer Pool, U. Heidelberg, 2000–2006
- Head of System Administration, AG Numerik, Heidelberg, U. Heidelberg, 1999–2006.
